DENMARK

Rev. B. F. Wentworth was assisted at the Sunday service by campers from camp Blazing Trail who sang a lovely hymn. Edith Blake returned from visiting her sister, Edna (Jo) Day of Parsonsfield. Edith was awarded her third year bar for Sunday school attendance. She is a faithful worker and attendant.

The annual church bazaar, supper and entertainment is to be August 10, Thursday. The campers are to furnish the entertainment. These plans have been presented and discussed and it seems that the right start will eventually result from these discussions. As the men who are interested study the possibilities, they are realizing that each member must put his shoulder to the wheel and push. Such an attitude tends to mold the men together into a body that each one feels that it is to have a part.

Bringing the fruit of several growers together in such a way will make a volume that is sure to attract buyers and by selling through a committee (which may or may not be done) the bargaining power will be greatly increased. The fruiting will be done by one crew at a central location and will probably be under the supervision of a state inspector. Thus the per cent. of high grade fruit will depend not on the grades but on the care taken during the growing period.

An organization committee consisting of Seward Stearns, Ellis Ellingwood, Oayma Colby and Irving Andrews is at work at the present time interviewing prospective members. This committee met with Mr. Atherton, Tuesday night, Aug. 1, in the Farm Bureau office at Auburn and completed organization papers. After this meeting it is hoped to call the prospective members together to elect officers, directors, committees, etc., and draw up definite working plans.

J. W. S. Colly, well known poultry man of South Paris, spoke to the Paris Hill 4-H Club on Dressing Poultry.

All potato seed plots in Oxford County under the supervision of the Extension Service have been rogued by Crops Specialist, A. K. Gardner. These plots are distributed as follows: Denmark 1, Hiram 1, Brunswick 2, South Paris 2, Waterford 2, Sumner 2, Hiram 4, and Dover 1, East Bethel 2, Bethel 4.

Eighteen of these plots passed the first roguing and will be rogued again in ten days or two weeks. Three men want to start with new seed next year. The total infection was about 1.4 per cent, but a few highly infected plots brought this average up. Eleven plots were less than 1 per cent diseased. In several cases seed plots were found planted near potato fields and even though some of them were quite free from disease now, they are likely to become infected and carry the disease over to next year. This would indicate that considerable educational work must still be done to help control potato diseases.

Harland Bumpus is cutting the hay for Mrs. Currie Logan. Bertrand Rugg is cutting the hay on C. E. McAlister's place. Will Bird and Charles Kimball are helping him. Clarence McAlister was in Norway and South Paris, Saturday, on business. Lloyd Swan spent several days last week with relatives in Bethel.

Mrs. Flora McAlister had the misfortune to get a bad fall Sunday morning. She went to Mrs. Logan's in the afternoon and was not able to return home until Tuesday, but is now so she can move around some with the aid of a cane. The hall storm of Sunday afternoon did lots of damage through the town to gardens, windows and roofing paper.

EAST STONEHAM

Littlefield Reunion

In spite of the heavy showers on Sunday, July 30th, a very enjoyable day was spent at the home of Virgil H. Littlefield, East Stoneham, by thirty-nine members of the Littlefield clan at their annual get-together.

A dinner was served. The little hen which has been passed down through the generations has been now contributed for this purpose, that is, to serve as table decoration at each annual get-together. The reading of letters from members unable to be present was followed by a short business meeting and the rest of the day was spent socially.

SWEDEN

Mrs. Charlotte Moulton is working evenings at Staley's drug store in Bridgton.
